

## SOLUTION AT A GLANCE: CHP PROJECT PROFILES DATABASE

### TOOL TYPE

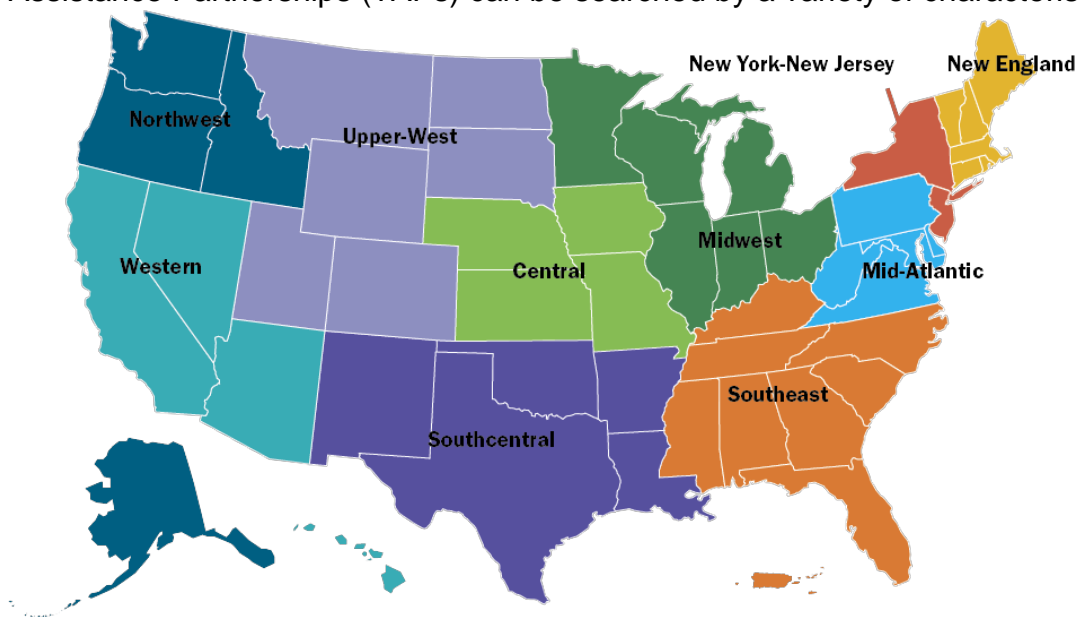

Other

### TECHNOLOGY

Combined Heat and Power System

### OVERVIEW

In this database, more than 160 CHP Project Profiles compiled by DOE's CHP Technical Assistance Partnerships (TAPs) can be searched by a variety of characteristics, including:

- State
- CHP TAP
- Market sector
- North American Industry Classification System (NAICS) code
- System size
- Technology/prime mover
- Fuel
- Thermal energy use
- Year installed

The CHP TAPs promote and assist in transforming the market for CHP, waste heat to power, and district energy technologies/concepts throughout the United States.
